Rector's address

From the very first days of your life in RUDN University you will find many interesting events that will affect your life and professional development.

I remember my first hours at university well. In August 30, I arrived at the Kazan railway station by an evening train from Volgograd. I got to the hostel at about 12 at night. It happened so that the linen-keeper was no longer there, there was nobody to give out bed linen (now, of course, it's so hard to imagine). I was placed in the room where two students from Africa lived. Seeing that I do not have any bedding, they took my bed and put it between their own, covered with two sheets, gave me a pillow. We went to bed together on three beds, covered with two sheets. In this way my first night passed at UDN, so I felt one of the main values of our university - internationality. This principle helped me a lot while learning French - in fact, I lived in a language environment. We always shared the best and we always helped each other in studies and life, in science and sport, in career and creativity. As a result, life developed in such a way that many of us have made progress - for example, I became the Minister of Education of Russia, and my roommate became the Minister of Justice of the Republic of Cameroon.

Student years are the most vivid and fruitful time. I am setting you up to get maximum from these years. Experiment, practice, rehearse! Open borders through academic mobility programs, start a career in meetings with employers, offer ideas at science festivals and make the world better with volunteer projects. I hope you quickly learn to enjoy the atmosphere of RUDN University - it is truly unique. Here your life will be full of bright events, full of brilliant opportunities, rich in good people. RUDN University is a place that opens up to you the whole world. A world without horizons, a world of ideas, a world of possibilities!

СЛОВА А.П. ВИХРЯНА
МУЗЫКА Г.Н. ТРОФИМОВОЙ

Я люблю РУДН, это ТРУДНое слово...
Но ТРУДНее всего мне его позабыть!
Целый мир обойду — не найду я другого,
Чтобы память сумела его заменить.

Я люблю РУДН за напевность наречий,
За мозаику лиц и его доброту.
И за то, что дела ценит выше, чем речи,
Всех народов Земли воплощая мечту.

ПРИПЕВ:

Я люблю РУДН!
I love you RUDN!
Oui je t'aime RUDN!
Yo te amo RUDN!

Я люблю РУДН за веселый характер,
За студенческий смех в коридорах родных.
РУДН делит всех на «сестер» и на «братьев»,
Не деля никого на «своих» и «чужих».

Я люблю РУДН за любовь к переменам,
За классический стиль и за смелость идей.
Свято верю я в то, что он будет бессменным
Властином судьбы в жизни многих людей!

STUDIES AT RUDN UNIVERSITY

WHO ARE TUTORS?

At each faculty there are several tutors on academic work, responsible for one or several areas of training. The work of the tutor accompanies the educational process «from A to Z»: he helps students choose elective* courses, the themes of the educational and scientific research, carries out various consultations and helps in solving problems related to training.

Find out a timetable for your tutor at your faculty/institute/academy.

RATING SYSTEM

The score-rating system (SRS) is a system for assessing the quality of mastering the basic educational programs by university students, including a multi-point system of assessments and a methodology for compiling rating lists of students.

The system is guided by the principle of constant student learning, and not «from session to session.» It is based on a scale of «100 points» and is accumulative during the semester.

*Subject «by choice»

When summarizing, the points accumulated by the student are translated into a traditional score on a four-point scale (unsatisfactory/satisfactory/good/excellent) and in the ECTS assessment (A, B, C, D, E, FX, F).

«Unsatisfactory» marks, FX, F
are not set in the student record book.

VERIFICATION OF STUDENTS' WORKS FOR ORIGINALITY:

All coursework and graduate works of students of RUDN University must be tested in the Antiplagiat.VUZ system.

The verification system is made as convenient as possible for the student:

1. Scientific adviser his personal account creates a task for students (the task is a form for downloading from the student, automatic checking, and viewing and reviewing by the teacher) and sends them invitations to download the work by corporate e-mail.
2. Students receive invitations, follow the link in the letter and go to the work download page.

3. On the work download page, students upload the work file and click the "Submit for Review" button.
4. The teacher receives a notice of receipt of work and confirms the fact of receiving the file in his account.
5. The Antiplagiat.VUZ system automatically checks the work of the student and generates a report on the availability of borrowings, the full report is available to the teacher, and a short report to the student.
6. The teacher checks the result of the automatic check and notes the sources of legitimate borrowing.
7. The final assessment of originality is indicated in the accompanying documents required for the protection of the student's scientific work.
8. The teacher can check other types of independent work, which involve the use of various sources, on his own through Antiplagiat.VUZ or other verification systems.

In accordance with the "Regulations on the use of the Antiplagiat system for checking written educational works in the RUDN University" and the changes made to it (Rector's Order No. 747 of September 20, 1998), each student has at least 3 attempts to check his graduate work and 2 attempts – for graduate work.

The work is stored in the internal storage of the system, comparison is not conducted when the same work (and other works of this year) are downloaded repeatedly.

Subsequently, graduate works (but not course works) are transferred to the permanent storage system after protection and receipt of assessment, this process is carried out by the faculty, institute, academy (specially appointed employee, most often – responsible for graduation).

Rules for retake and repeat the course:

In accordance with the “Regulations on the ongoing monitoring of progress and intermediate certification of students at RUDN” (Rector’s Order No. 169 dated 03/12/2018), all students of RUDN have the right to 3 attempts to complete an intermediate attestation for each discipline: the first attempt during the main session, as well as 2 additional (last attempt - with a commission). Intermediate attestation is a test that the student passes through the results of mastering the discipline at the end of the semester. In the usual sense, this is a session at the end of each semester or module (as opposed to the final state attestation, which students take at the end of the course and which includes the state exam and, for most areas of training and specialties, defense of the graduation qualification work or master’s thesis.

- If the student did not score the required number of points for a positive assessment at the first trial, the retake is assigned “automatically”. The student comes to trials on dates specified in the retake schedule at the faculty/institute/academy.
- If you have not passed the attestation test and the second time, you will be assigned for a third attempt (with a commission) to pass the exam. You can learn about the date of this attempt from the retake schedule

or at the dean's office/directorate of your faculty, institute or academy.

- If a student missed one of the attempts to pass the test for a good reason (this must be confirmed by document), he will be assigned another date for passing the test. To do this, you must contact the dean's office / directorate of the educational unit.
- If you did not pass the test on the third attempt, this is the basis for the student's submission to expulsion. The final decision on the expulsion is made by the dean's commission.
- If a student has difficulty mastering a discipline or a part of it (section), he can repeat the course.

Repetition of the course is chargeable, and enrollment on it is voluntary on the part of the student. Please note that a repetition entry is not mandatory and compulsory.

The repetition of the course is an additional educational service, which provides for the repetition of the program of a particular discipline or its part (section), which allows the student to form the necessary competencies and prepare for an intermediate attestation.

To register a course, you should contact the dean's office or the directorate of your faculty, institute or academy and write a statement in the prescribed form.

The repetition of the course is available to students who have no more than two academic debts. The application for the repetition of the course must be submitted to the dean's office before the last (third) attempt to pass attestation of the discipline.

RUDN UNIVERSITY VOLUNTEER CENTER

In 2008, the Volunteer squad "Wind of Changes" was created at the University. Every year in the spring and autumn, squad volunteers organized cleanups in a nearby forest. During Earth Day, which is held annually, volunteers pay attention of students and youth to socially significant environmental problems, and also distribute seeds of flowers and plants.

An important activity of "Wind of Changes" is visiting orphanages. Every year more than 10 trips to orphanages in Moscow and the Moscow region are organized. There, volunteers conduct entertainment and sports events, social work with orphans and also carry out works on site improvement of orphanages.

There are also educational programs for additional education of volunteers in their areas of activity. The Center implements the additional education program "Training of Volunteers for Work with disabled persons". Students who have successfully completed training can provide qualified assistance in the rehabilitation and habilitation of persons with disabilities.

In November 2017, RUDN University volunteer center was established on the basis of a volunteer squad. The Volunteer center is involved into organizing events, ensuring the participation of students in the work of conferences and forums held both at the Uni-

versity and in Russia. The first volunteer headquarters of the XXIX World Winter Universiade 2019 in Krasnoyarsk operates in Moscow on the basis of the RUDN University volunteer center.

Among the major events where the volunteers of the center were involved, it is possible to single out: the XX conference of the 5-100 Project, the International stage of "Future depends on you" (the XII open All-Russian football competitions among the teams of orphanages and boarding schools), a conference "Present and Future of the Financial Policy of the Ministry of Education and Science of the Russian Federation: Challenges and Prospects", First Professors Forum "Problems of Modern Science and Higher Education: New Challenges", All-Russian Geographic Dictation.
