- The peoples of the North Caucasus and Transcaucasia.
- The peoples of Siberia and the Far East.
- The peoples of Central Asia.

STUDENTS FEEDBACK

FOZILOV KOMRON, TAJIKISTAN

“ I studied at the two years dual master’s program of the RUDN University together with the Russian-Tajik (Slavic) University in the field of “Area Studies”. The training took place at both universities, which allowed me to get the best from two educational systems and repectively from two Universities. During the training at the Department of Theory and History of International Relations, the teachers gave me useful knowledge about relations between Russia and the CIS countries, during the lectures I got acquainted with the Russian vision of multilateral relations, which will be useful to me in my future work. Moreover, getting two diplomas, of my Russian-Tajik University, and RUDN is a great chance for any specialist. ”

IBODOVA TALIFA, TAJIKISTAN

“ I arrived in Moscow at the SCO program for 10 months. I was enrolled at the Peoples’ Friendship University of Russia at the Department of Theory and History of International Relations – Foreign Area Studies “Russia and the Neighboring Regions of the CIS”. I recommend it to every student who wants to go to a foreign university. RUDN is a huge university where students from all over the world study. Teachers are highly qualified and true professionals! They are ready to help you, explain and convey everything related to your future profession. The University of Peoples’ Friendship has a unique education program that allows students to master and combine both theory and practice. I was especially lucky because I got to RUDN University under the SCO program, which we also call the “Double Degree Program”. The first year I study at RUDN University, and the second year at the university of my country. At the end of 2 years of master’s program, I am supposed to pass exams at once in 2 universities and get 2 diplomas, which is doubly pleasant! ”
