Dear colleagues!

We are eager to see you at our international conference '**Mathematical modelling in biomedicine**' taking place in Peoples' Friendship University (RUDN University)! We would like to remind you that the registration for the conference is open till **July 31st**. If you are going to take part in the conference as a speaker you should upload a short single-page abstract using the registration form. The preferred file format of the abstracts is *tex*; *doc/docx* files are also allowed, but it is highly recommended not to use equations in this case. Figures are not allowed in the abstracts. The short simple-styled reference list should be included. A *tex* template is attached to this information letter and also can be got on the conference website. Those speakers who have already registered for the conference but have not uploaded an abstract are kindly asked either to repeat the registration process or to email the abstract to mathmedicin@gmail.com

We also call for the conference proceedings. The proceedings are planned to be published in an issue of ITM Web of Conference. The journal is indexed in Web of Science (Conference Proceedings Citation Index). The publication fee of 30 Euros per paper should be paid by the authors. Please let us know if you are interested in the proceedings publication before the deadline of the abstracts submission. If a sufficient number of authors are interested to submit an article then the Organizing Committee will send out manuscript requirements and the appropriate templates.

Please stay tuned for the information about the registration fee and accommodation details.

Sincerely, Organizing Committee
of '**Mathematical modelling in
biomedicine**'
